

Slide Rules for the Innumerate

Coifful + Essah Corporation

CHAPTER 1: BASICS

Care and Handling.

Your new slide rule is a precision instrument that can retain its accuracy over many years of use, if just a few simple rules of care and handling are followed.

Paint Can Stirring.

Some family members may find that your slide rule makes a convenient paint can stirrer. In the interest of domestic tranquility and marital bliss, you should not discourage this. It provides for a shared interest and you can expect your partner to be more interested in your hobby as a result.

What we do recommend, however, is proper clean up afterwards. Use of an OSHA-approved ventilation hood with safety gloves and goggles while applying trichloroethylene and methyl chloride should have your rule sparkling again in no time.

Inside this issue:

Rain.	2
Snow.	2
Sleet.	2
Mud.	3
Floods.	4
Cigar Smoke.	5
Pets.	6

Special points of interest:

- Carving your name in your rule.
- Pasting your picture on your rule.
- Adding glitter to your rule.
- Insuring your rule against loss or damage.
